ANNUAL FUNDING NOTICE

For
Local 282 Pension Trust Fund

Introduction

This notice includes important funding information about your pension plan ("the Plan"). This notice also provides a summary of federal rules governing multiemployer plans in reorganization and insolvent plans and benefit payments guaranteed by the Pension Benefit Guaranty Corporation (PBGC), a federal agency. This notice is for the plan year beginning March 1, 2010 and ending February 28, 2011 ("Plan Year").

Funded Percentage

The funded percentage of a plan is a measure of how well that plan is funded. This percentage is obtained by dividing the Plan's assets by its liabilities on the valuation date for the plan year. In general, the higher the percentage, the better funded the plan. The Plan's funded percentage for the Plan Year and 2 preceding plan years is set forth in the chart below, along with a statement of the value of the Plan's assets and liabilities for the same period.

	2010 Plan Year	2009 Plan Year	2008 Plan Year
Valuation Date	March 1, 2010	March 1, 2009	March 1, 2008
Funded percentage	85.7%	76.8%	89.6%
Value of Assets	\$580,080,680	\$499,246,807	\$553,451,749
Value of Liabilities	\$676,713,303	\$649,825,654	\$617,468,409

Fair Market Value of Assets

Asset values in the chart above are actuarial values, not market values. Market values tend to show a clearer picture of a plan's funded status as of a given point in time. However, because market values can fluctuate daily based on factors in the marketplace, such as changes in the stock market, pension law allows plans to use actuarial values for funding purposes. While actuarial values fluctuate less than market values, they are estimates. As of February 28, 2011, the fair market value of the Plan's assets was \$561,934,067¹. As of February 28, 2010, the fair market value of the Plan's assets was \$507,138,766. As of February 28, 2009, the fair market value of the Plan's assets was \$416,039,006.

Participant Information

The total number of participants in the Plan as of the Plan's valuation date was 6,623. Of this number, 2,826 were active participants, 3,001 were retired or separated from service and receiving benefits, and 796 were retired or separated from service and entitled to future benefits.

¹ This amount is preliminary and is subject to change once the audit is complete.

Funding & Investment Policies

The law requires that every pension plan have a procedure for establishing a funding policy to carry out the plan objectives. A funding policy relates to the level of contributions needed to pay for benefits promised under the plan currently and over the years. The Plan's policy is as follows:

The Plan is funded by contributions made by employers pursuant to collective bargaining agreements with Local 282, I.B.T., which represents the Plan's participants.

Once money is contributed to the Plan, the money is invested by plan officials called fiduciaries. Specific investments are made in accordance with the Plan's investment policy. Generally speaking, an investment policy is a written statement that provides the fiduciaries who are responsible for plan investments with guidelines or general instructions concerning various types or categories of investment management decisions. The investment policy of the Plan is as follows:

Investment objectives:

Assets of the Fund shall be invested in a manner consistent with the fiduciary standards of the Employee Retirement Income Security Act of 1974 ("ERISA") and supporting regulations. The Fund's assets shall be invested with the primary emphasis upon consistency of performance, i.e., the achievement of growth in such a manner as to protect Fund assets from excessive volatility in market value from year to year. Significant investment awareness must also be placed upon capital protection, i.e., the achievement of adequate investment growth such that the purchasing power of the principal amount of these assets is maintained over time. Sufficient liquidity shall be maintained to meet benefit payment obligations and other Fund expenses.

Investment Guidelines:

Each Investment Manager is a bank (trust company), insurance company, or registered investment advisor. Each Investment Manager shall at all times be registered in good standing as an investment advisor under the Investment Advisers Act of 1940. Each Investment Manager acknowledges in writing that it is a fiduciary of the Fund. Full discretion is granted to each Investment Manager with regard to the sector and security selection and the timing of any transactions; provided however that such discretion shall always be exercised in accordance with each Investment Manager's fiduciary responsibilities under ERISA.

Standards of Investment Performance:

Each Investment Manager is reviewed regularly regarding performance, personnel, strategy, research capabilities, organizational and business matters and other qualitative factors that may affect its ability to achieve the desired investment results. Consideration will be given to the extent to which performance results are consistent with the goals and objectives set forth in the Investment Policy and/or individual guidelines provided to an Investment Manager. The Fund's investment policy outlines prohibited investments as well as limits regarding the percentage of the fund that may be invested in any one company and industry. Minimum credit quality guidelines are established and provided to investment managers. No investment may be made which violates the provisions of ERISA or the Internal Revenue Code.

The Trustees review the Fund's investment policy on a regular basis and make periodic changes when, based on all available information, it is prudent to do so.

In accordance with the Plan's investment policy, the Plan's assets were allocated among the following categories of investments, as of the end of the Plan Year. These allocations are percentages of total assets:

Asset Allocations	Percentage
1. Interest-bearing cash	<u>2.50%</u>
2. U.S. government securities	<u>11.28%</u>
3. Corporate debt instruments (other than employer securities): Preferred All other	<u>29.08%</u>
4. Corporate stocks (other than employer securities): Preferred Common	<u>34.87%</u>
5. Partnership/joint venture interests	

6. Real estate (other than employer real property)	<u>0.41%</u>
7. Loans (other than to participants)	
8. Participant loans	
9. Value of interest in common/collective trusts	<u>3.51%</u>
10. Value of interest in pooled separate accounts	<u>10.21%</u>
11. Value of interest in master trust investment accounts	
12. Value of interest in 103-12 investment entities	<u>2.22%</u>
13. Value of interest in registered investment companies (e.g., mutual funds)	
14. Value of funds held in insurance co. general account (unallocated contracts)	
15. Employer-related investments: Employer Securities Employer real property	
16. Buildings and other property used in plan operation	<u>2.09%</u>
17. Other	<u>3.83%</u>

Critical or Endangered Status

Under federal pension law a plan generally will be considered to be in “endangered” status if, at the beginning of the plan year, the funded percentage of the plan is less than 80 percent or in “critical” status if the percentage is less than 65 percent (other factors may also apply). If a pension plan enters endangered status, the trustees of the plan are required to adopt a funding improvement plan. Similarly, if a pension plan enters critical status, the trustees of the plan are required to adopt a rehabilitation plan. Rehabilitation and funding improvement plans establish steps and benchmarks for pension plans to improve their funding status over a specified period of time.

The Plan was not in endangered or critical status in the Plan Year.

Events with Material Effect on Assets or Liabilities

Federal law requires trustees to provide in this notice a written explanation of events, taking effect in the current plan year, which are expected to have a material effect on plan liabilities or assets. For the plan year beginning on March 1, 2011, and ending on February 29, 2012, there are no known events expected to have a material effect on Plan liabilities and assets for the year.

Right to Request a Copy of the Annual Report

A pension plan is required to file with the US Department of Labor an annual report (i.e., Form 5500) containing financial and other information about the plan. Copies of the annual report are available from the US Department of Labor, Employee Benefits Security Administration’s Public Disclosure Room at 200 Constitution Avenue, NW, Room N-1513, Washington, DC 20210, or by calling 202.693.8673. Or you may obtain a copy of the Plan’s annual report by making a written request to the plan administrator.

Please note that the Annual Report for the 2010 plan year may not be available until mid-December of 2011.

Summary of Rules Governing Plans in Reorganization and Insolvent Plans

Federal law has a number of special rules that apply to financially troubled multiemployer plans. Under so-called “plan reorganization rules,” a plan with adverse financial experience may need to increase required contributions and may, under certain circumstances, reduce benefits that are not eligible for the PBGC’s guarantee (generally, benefits that have been in effect for less than 60 months). If a plan is in reorganization status, it must provide notification that the plan is in reorganization status and that, if contributions are not increased, accrued benefits under the plan may be reduced or an excise tax may be imposed (or both). The law requires the plan to furnish this notification to each contributing employer and the labor organization.

Despite the special plan reorganization rules, a plan in reorganization nevertheless could become insolvent. A plan is insolvent for a plan year if its available financial resources are not sufficient to pay benefits when due for the plan year. An insolvent plan must reduce benefit payments to the highest level that can be paid from the plan’s available financial resources. If such resources are not enough to pay benefits at a level specified by law (see Benefit

Payments Guaranteed by the PBGC, below), the plan must apply to the PBGC for financial assistance. The PBGC, by law, will loan the plan the amount necessary to pay benefits at the guaranteed level. Reduced benefits may be restored if the plan's financial condition improves.

A plan that becomes insolvent must provide prompt notification of the insolvency to participants and beneficiaries, contributing employers, labor unions representing participants, and PBGC. In addition, participants and beneficiaries also must receive information regarding whether, and how, their benefits will be reduced or affected as a result of the insolvency, including loss of a lump sum option. This information will be provided for each year the plan is insolvent.

Benefit Payments Guaranteed by the PBGC

The maximum benefit that the PBGC guarantees is set by law. Only vested benefits are guaranteed. Specifically, the PBGC guarantees a monthly benefit payment equal to 100 percent of the first \$11 of the Plan's monthly benefit accrual rate, plus 75 percent of the next \$33 of the accrual rate, times each year of credited service. The PBGC's maximum guarantee, therefore, is \$35.75 per month times a participant's years of credited service.

Example 1: If a participant with 10 years of credited service has an accrued monthly benefit of \$500, the accrual rate for purposes of determining the PBGC guarantee would be determined by dividing the monthly benefit by the participant's years of service ($\$500/10$), which equals \$50. The guaranteed amount for a \$50 monthly accrual rate is equal to the sum of \$11 plus \$24.75 ($.75 \times \$33$), or \$35.75. Thus, the participant's guaranteed monthly benefit is \$357.50 ($\35.75×10).

Example 2: If the participant in Example 1 has an accrued monthly benefit of \$200, the accrual rate for purposes of determining the guarantee would be \$20 (or $\$200/10$). The guaranteed amount for a \$20 monthly accrual rate is equal to the sum of \$11 plus \$6.75 ($.75 \times \$9$), or \$17.75. Thus, the participant's guaranteed monthly benefit would be \$177.50 ($\17.75×10).

The PBGC guarantees pension benefits payable at normal retirement age and some early retirement benefits. In calculating a person's monthly payment, the PBGC will disregard any benefit increases that were made under the plan within 60 months before the earlier of the plan's termination or insolvency (or benefits that were in effect for less than 60 months at the time of termination or insolvency). Similarly, the PBGC does not guarantee pre-retirement death benefits to a spouse or beneficiary (e.g., a qualified pre-retirement survivor annuity) if the participant dies after the plan terminates, benefits above the normal retirement benefit, disability benefits not in pay status, or non-pension benefits, such as health insurance, life insurance, death benefits, vacation pay, or severance pay.

Where to Get More Information

For more information about this notice, you may contact the Fund office at 516-488-2822. For identification purposes, the official plan number is 001 and the plan sponsor's employer identification number or "EIN" is 11-3245313. For more information about the PBGC and benefit guarantees, go to PBGC's website, www.pbgc.gov, or call PBGC toll-free at 1-800-400-7242 (TTY/TDD users may call the Federal relay service toll free at 1-800-877-8339 and ask to be connected to 1-800-400-7242).
